

# THE ARMENIAN ATROCITIES.

---

## Reported Agreement for Reforms—An English Taunt about Southern Outrages.

CONSTANTINOPLE, December 27.—It is stated that the council of ministers last Monday agreed to important reforms in Armenia.

TREBIZOND, December 27.—The Turkish garrisons in Armenia are being reinforced.

LONDON, December 27.—In a leader this morning upon the recent troubles in Brooks County, Georgia, where, according to some reports, negro women were ill-treated in order to make them tell the hiding-place of the murderer, Pike, the *Daily News* says: "If the reports that the whites tortured colored women are true, Mr. Jewett may congratulate himself on his good fortune in being refused permission to inquire into the Armenian atrocities. When he talked of Sassun the Turk might have retorted with Georgia and Alabama. Georgia appears to be true to its old creed, nothing is too bad for colored people. One gleam of hope in the prospect is that these infamies no longer benefit by the silent acquiescence of public opinion. It is not too much to say that the fate of American freedom is at stake in these atrocities. The wonder is that the Kurds do not memorialize President Cleveland about the state of the South."
